Research interests

I am interested in learning about people and how they use technology. My projects are usually at the intersection of computer science, medicine, design, and social sciences. I am an expert in ethnographically informed design, user-centred design, and participatory design approaches.

Broad keywords for my work would be: HCI, CSCW, Medical/Health informatics, Ambient assisted living, and Science and Technology Studies.

Education

- | | |
|-----------|--|
| 2012-2017 | PhD in Human-Computer Interaction, TU Wien
<i>Thesis: “The Everyday Life with Parkinson’s and Self-care Technologies”. Supervised by Geraldine Fitzpatrick.</i> |
| 2005-2010 | MSc/BSc in Informatics and Computing Engineering, University of Porto
<i>Thesis: “Healthcare TV Based User Interfaces for Older Adults”. Supervised by Paula Alexandra Silva and Teresa Galvão.</i> |

Experience

- | | |
|-----------|---|
| 2017-now | Senior researcher, Fraunhofer Portugal AICOS, Porto |
| 2016-2017 | Researcher, NOVA-LINCS, Universidade Nova de Lisboa, Lisboa |
| 2012-2017 | PhD Student, Institute for Design and Assessment of Technology, TU Wien, Vienna |
| 2010-2012 | Researcher, Fraunhofer Portugal AICOS, Porto |
| 2008-2010 | Research Assistant, Fraunhofer Portugal AICOS, Porto |

Grants, honours & awards

ACQUIRED PROJECT GRANTS

- | | |
|------|---|
| 2011 | “Smartphones for Smart Seniors - S4S” funded by ANI (Portugal) – €137K
<i>Lead proposal writer and co-PI at AICOS.</i> |
|------|---|

- 2011 “REMPARK” funded by FP7-ICT (EU) – €411k
Co-proposal writer, workpackage manager and co-investigator at AICOS.
- 2011 “CellPipe UI” funded by Alcatel-Lucent – €49k
Co-proposal writer and co-investigator at AICOS.

OTHER GRANTS AND HONOURS

- 2016 Two special recognitions for an ‘Excellent Review’ at CHI 2016
- 2016 Grant for attending conference from TU Wien (€1390)
- 2015 Grant for attending CHI 2015 doctoral consortium (\$1300)
- 2012 Vienna PhD School of Informatics scholarship (3 years of funding)
- 2012 Dance! Don’t Fall was on the Top-25 Apps, CES Mobile Apps Showdown
- 2011 Smart Companion was 2nd most creative app, ZON Creativity Award (prize: €6250)
- 2010 Mover was 5th best Lifestyle app, Android Developer Challenge II (prize: equipment)

Teaching & supervision experience

COURSES

- Summer 2015 HCI in Healthcare (MSc) – Co-teaching and supervision of student projects in Vienna
- Winter 2014 User Research Methods (MSc)– Co-teaching and supervision of student projects in Vienna

SUPERVISED STUDENTS

- 2015 Martin Herndl (BSc TU Wien) – Developing an Android Self-Management Application for People with Parkinson’s Disease. Co-supervised with Geraldine Fitzpatrick.
- 2012 João Cevada (MSc FEUP/ AICOS) – User Interface Design Recommendations for Fitting Smartphone Applications to Persons With Parkinson. Co-supervised with Luís Teixeira.

Projects

- 2014-2018 *Clockwork* (EU AAL-JP) – This project developed technologies to support the self-reflection and self-awareness of shift workers. I lead the research team of Fraunhofer, supervising the user research, design, and evaluation of the smartphone app and the smart badge. I also coordinated the project more generally. <http://clockworkproject.eu/>
- 2011-2015 *REMPARK* (EU ICT-FP7) – This four year project developed a wearable system to monitor symptoms of people with Parkinson’s, intervene in the gait, and collect data to improve the therapy. I participated in the first year of the project and was involved in user research and early design phases of the smartphone apps for patients. <http://www.rempark.eu/>
- 2011-2014 *S4S* (PT) – This project adapted the Windows Phone for older adults. I participated in the first year of the project and was involved in the user research, design, and evaluation of some of the smartphone applications.
- 2011-2012 *Dance! Don’t Fall* (Internal) – This project created an Android application that monitors the risk of falling while actively reducing it through dancing. I participated in the user research, design, and evaluation of the application. <http://dancedontfall.projects.fraunhofer.pt>

- 2010-2012 *Smart Companion* (Internal) – This project created an Android Operating system specifically for older people. I participated in the user research, design, and evaluation of the smartphone applications. Smart Companion is today being sold by GOCIETY under the name GOLIVEPHONE. <http://smartcompanion.projects.fraunhofer.pt>
- 2009-2012 *eCAALYX* (EU AAL-JP) – This project created a telehealth system for older adults with chronic conditions. I participated in the the user research, design, and evaluation of the TV interfaces for older adults. <http://ecaalyx.org>
- 2009-2012 *Mover* (Internal) – This project created an Android app that explored the accelerometer to capture activity and thus promote movement. I participated in the design and evaluation of the app. Mover is today being sold as part of the GOLIVEPHONE mentioned above. <http://mover.projects.fraunhofer.pt/>

INVITED PRESENTATIONS

12/09/2017

	“Self-care technologies” at the course Qualitative methods and co-design of self-care technologies of University of Copenhagen, Denmark.
6/09/2016	“Self-care technologies” at the course Qualitative methods and co-design of self-care technologies of University of Copenhagen, Denmark.
14/09/2015	“Understanding and Promoting the Creation of Patient Knowledge Online” at University of Trento & FBK, Italy.
17/08/2015	“How can technology help people improve their self-care? Supporting engagement in their clinical consultations” at IT University of Copenhagen, Denmark.
17/08/2015	“Designing Self-care Technology for People with Parkinson’s: A Focus on Everyday Life” at University of Copenhagen, Denmark.
27/10/2014	“The Self-care of Parkinson’s” at the Designing Self-care for Everyday Life Workshop at NordiCHI 2014 in Helsinki, Finland.
12/07/2012	“Design recommendations for TV user interfaces for older adults” at the Interactive Assistive Technologies for the Elderly Workshop in University of Aveiro, Portugal.
06/05/2011	“eCAALYX project” at the course Multimodal Interfaces of University of Porto, Portugal.

MEDIA MENTIONS

Mover was mentioned in the [Jornal de Negócios](#) (30/04/2010) and [Diário de Notícias](#) (29/05/2010). Smart Companion was described in [RTP](#) (01/08/2011), [Porto Canal](#), and another time at [Porto Canal](#) (26/07/2012) when I was even interviewed.
